

## **BLINK VIDEO DOORBELL SAFETY AND COMPLIANCE DOCUMENT US**

Safety and Compliance Information for Blink Video Doorbell

Use Responsibly. Read all instructions and safety information before use.

**FAILURE TO FOLLOW THESE SAFETY INSTRUCTIONS COULD RESULT IN FIRE, ELECTRIC SHOCK, OR OTHER INJURY OR DAMAGE.**

**[Triangle with !] WARNING!** Some doorbell systems use higher voltage without a transformer. Connecting to these systems WILL DAMAGE YOUR DOORBELL AND POSE RISK OF ELECTRIC SHOCK. If at any point you are unsure how to follow the instructions, STOP and consult a qualified electrician.

**[Triangle with !] WARNING!** Electrical shock hazard. Disconnect power to installation area at your circuit breaker or fuse box before beginning installation. Always use caution when handling electrical wiring.

**BATTERY SAFETY** The Lithium batteries accompanying this device cannot be recharged. Do not open, disassemble, bend, deform, puncture, or shred the battery. Do not modify, attempt to insert foreign objects into the battery or immerse or expose to water or other liquids. Do not expose the battery to fire, explosion, high temperature or other hazard. Fires involving lithium batteries can usually be controlled with flooding with water, except in confined spaces where a smothering agent should be used.

If dropped and you suspect damage, take steps to prevent any ingestion or direct contact of fluids and any other materials from the battery with skin or clothes. If a battery leaks, remove all batteries and recycle or dispose of them in accordance with battery manufacturer's recommendations. If fluid or other material from the battery comes into contact with skin or clothes, flush skin or clothes with water immediately. An open battery should never be exposed to water, as fire or explosion may result from exposure to water. Insert the batteries in the proper direction as indicated by positive (+) and negative (-) markings in battery compartment. Always replace with non-rechargeable AA 1.5V Lithium batteries (lithium metal batteries) specified for this product.

Do not mix used and new batteries or batteries of different types (for example, Lithium and alkaline batteries). Always remove old, weak, or worn-out batteries promptly and recycle or dispose of them in accordance with applicable laws and regulations.

### **Other Safety Considerations**

- Installation by a qualified electrician may be required in your area. Refer to your local laws and building codes before performing electrical work; permits and/or professional installation may be required by law.
- **WARNING.** Risk of electric shock. Do not directly connect this device to the electrical main. This device is intended to be connected to an existing doorbell chime transformer supplying 16-24 volts AC at 50 or 60 Hz, 40VA max. For setup, mounting and hardwire installation instructions, go to [blinkforhome.com/setup](http://blinkforhome.com/setup). Installation by a qualified electrician may be required in your area. Refer to your local laws and building codes before performing electrical work; permits and/or professional installation may be required by law.

- Small parts contained in your Device and its accessories may present a choking hazard to small children.
- Handle your device and its accessories with care. Your device or its accessories may have pointed edges which can lead to scratches, cuts, or other physical injury.”

### **SAFELY CONNECTING YOUR RING VIDEO DOORBELL WIRED TO YOUR HOME’S ELECTRICAL WIRING**

If you install the Blink Video Doorbell where a doorbell is already in use and you connect the Blink Video Doorbell to your home’s doorbell electrical wiring, you must turn off the existing doorbell’s power source at your home’s circuit breaker or fuse and test that the power is off BEFORE removing the existing doorbell, installing the Blink Video Doorbell, or touching electrical wires. It is extremely important to adhere to this safety precaution, if there is any natural gas, petrol fumes, or other potentially explosive fumes present in the vicinity. Failure to turn off circuit breaker or fuse so could result in EXPLOSION, FIRE, ELECTRIC SHOCK, OTHER INJURY or PROPERTY DAMAGE.

More than one disconnect switch may be required to turn off the equipment before servicing. To test whether you have successfully de-energized your existing doorbell’s power source, press your doorbell several times to confirm that the power is off.

If you encounter damaged or unsafe wiring, or if you are unsure or uncomfortable in performing this installation or handling electrical wiring, please consult a qualified electrician in your area.

Only use accessories that are recommended by the manufacturer. Use of third-party accessories may lead to damage to your Blink Video Doorbell or the accessory and may cause fire, electric shock, or injury.

### **Maintaining Your Blink Video Doorbell**

#### **Care Instructions for Blink Video Doorbell**

The Blink Video Doorbell can withstand outdoor use and contact with water under certain conditions. However, your Blink Video Doorbell is not intended for underwater use and may experience temporary effects from exposure to water or other weather conditions. Do not intentionally immerse your Blink Weather-Resistant Devices in water or expose it to liquids. Do not spill any food, oil, lotion, or other abrasive substances on your Blink Video Doorbell. Do not expose your Blink Video Doorbell to pressurized water, high velocity water, or extremely humid conditions (such as a steam room).

#### **Using Your Blink Device (Blink Video Doorbell)**

Blink Devices generate, use, and can radiate radio frequency (RF) energy and, if not used in accordance with its instructions, may cause interference to radio communications and electronic equipment. External RF signals may affect improperly installed or inadequately shielded electronic operating systems, entertainment systems, and personal medical devices. While most modern electronic equipment is shielded from external RF signals, if in doubt, check with the manufacturer. For personal medical devices (such as pacemakers and hearing aids), consult with your physician or the manufacturer to determine if they are adequately shielded from external RF signals.

## **FOR U.S. CUSTOMERS**

### **FCC Compliance Statement**

The Device and its related accessories like the remote and the adapter (the "Products") comply with part 15 of the FCC Rules. Operation of each Product is subject to the following two conditions: (1) this Product may not cause harmful interference and (2) this Product must accept any interference received, including interference that may cause undesired operation.

Note: This Product has been tested and found to comply with the limits for a Class B digital device or external switching power supply, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. The equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Changes or modifications to a Product by the user that are not expressly approved by the party responsible for compliance could make the Product no longer comply with the FCC Rules.

### **Information Regarding Exposure to Radio Frequency Energy**

The output power of the radio technology used in the device is below the radio frequency exposure limits set by the FCC. Nevertheless, it is advised to use this device in such a manner that minimizes the potential for human contact during normal operation. This device should be installed and operated with a minimum distance of 20 cm between the radiator and your body.

The Device meets the FCC Radio Frequency Emission Guidelines and is certified with the FCC. Information on these Products is on file with the FCC and can be found by inputting such Product's FCC ID (which can be found on the bottom of the Device) into the FCC ID Search form available at [transition.fcc.gov/oet/ea/fccid](http://transition.fcc.gov/oet/ea/fccid). After searching on the FCC ID for your device which can be found on the back cover. It is advised to use the wireless equipment in such a manner that the potential for human contact during normal operation is minimized.

### **Recycling the Products Properly**

In some areas, the disposal of certain electronic devices is regulated. Make sure you dispose of, or recycle, the Products in accordance with your local laws and regulations. For information about recycling your Products, go to <https://www.amazon.com/devicesupport>.

**Blink Video Doorbell Product Specifications**

Model Number: BDM00200U and BDM00200UW

Electrical Rating: 16-24 VAC and 2 AA 1.5 lithium metal (non-rechargeable) batteries

Operating and Storage Temperature: -4 to -113 degrees Fahrenheit
